

SOLUTION BRIEF

You know who's watching your money, but who is watching them?

Walker Sports Audit is an independent audit service that autonomously evaluates our client's entire portfolio of endorsements, contracts, investments, compliance, insurance, and tax reporting for a fixed or contingency fee.

THE WHY

Embezzlement, theft, damage, and destruction come from all directions in a constant storm. It seems like everyone has their hand in the cookie jar.

In 2015, Tim Duncan accused his former advisor of bilking him out of over \$20M. At the time, he said, "I know what I am doing. It's not like I was squandering my money or being irresponsible. I am a professional athlete, and I am constantly on the road. I did the appropriate thing and hired professional advisors to watch over my money and my investments. The problem was there was no one watching them." In 2018, Tim settled for a recovery of \$7.5M. It was the best he could do, while his advisor, Charles Banks, was eventually sentenced to four years in federal prison for defrauding him.

As the money involved in sports has increased at an astronomical rate the need for Walker Sports Audit has only grown more critical. Tim Duncan's story, along with countless other stories [including some personal], and encouraged by the founding partners of Black Progress Matters, Walker Sports Audit is scheduled to launch.

WHAT WE DO

There are four main components of our WSA services:

- Independent Forensic Audit
- Advacovery's Recovery of Funds
- Continuous Financial Monitoring
- Walker Sports Audit Trusted Advisor Rating Service

WHO WE ARE

Walker Sports Audit is an independent audit service that autonomously evaluates our client's entire portfolio of endorsements, contracts, investments, compliance, insurance, and tax reporting for a fixed or contingency fee. WSA also evaluates and rates all of our client's financial relationships, especially with their agents, lawyers, accountants, doctors, and advisors be them family or friends. Additionally, WSA can provide our clients with independent continuous monitoring services for all of their financial activity.

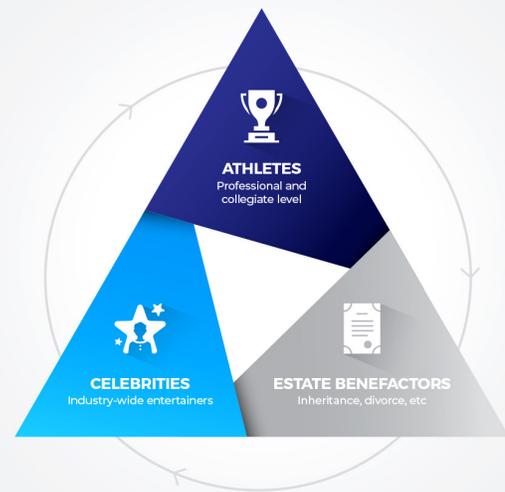

WHO WE ARE NOT

Most importantly, no WSA service provider will ever be able to be engaged by our clients beyond our WSA engagement. We will not be looking to solicit clients beyond our stated services. We will never attempt to replace our client's accountants, agents, etc., we simply offer our clients a very valuable and necessary audit and evaluation with a degree of separation that ensures no compromising agenda or misplaced loyalties.

WHO WE SERVE

Although we will initially be addressing athletes and celebrities [who fill the news every day with horror stories of how they were ruined by embezzlement from their most trusted advisors], we feel our independent audit and continuous monitoring services will also prove valuable to clients who have considerable estates with little limited personal business acumen or experience. Estates acquired through inheritance or divorce are particularly at risk from unscrupulous or indifferent fiduciary oversight.
